## What is Equity

**Represents ownership**

Equity is the share of ownership in the company

For every share bought by the investor proportionate ownership is reduced for the promoter

Shares are transferable / tradable

Mr. Chourey began the session with an introduction to trading markets and the concepts related to buying and selling of securities. He also discussed about general terminologies used in financial markets and checked the level of student's understanding. He generated

curiosities among students about where, why and on what parameters one must invest. He talked about financial markets and their functioning.

He explained financial markets as the suggested from the name itself, are a type of marketplace that provides an avenue for the sale and purchase of assets such as bonds, stocks, foreign exchange, and derivatives.

He further expressed his insights on the types of financial market; stock market, bond market, commodities market and derivatives market. He talked about equity as an investment option. How the equity shares of various brands have jumped up in a span of few years and money of general public has been multiplied manifolds.

He further emphasised on the importance of Financial Markets. They provide a place where participants like investors and debtors, regardless of their size, will receive fair and proper treatment. They also assist individuals, companies, and government organizations with access to capital.

Dr. Rashi Gupta, Assistant Professor, BBA coordinated for the event to be a success. Mr. Chourey and Ms. Meenakshi both answered all the questions of the students diligently. The session was highly, informative, practical, needed and interactive for all the students. They learnt analysis of financial markets, developed analytical thinking, facilitated decision making and further they would be able to take calculated risk.

The screenshot displays a Cisco Webex Meetings interface. The main area shows a grid of 20 participants in a 4x5 layout. The participants are:
