

Event Title: Guest Lecture on “Web Development using PHP”

Department: Bachelor of Computer Application (BCA)

Date and Time: September 30, 2019, 10:00pm-1:00pm

Venue: Room No.301, (AB-5), Third Floor, JEMTEC, Greater Noida

Conducted by (Resource Person): Mr. Krishna Murari Singh, Trainer

Company: Apron Solution Pvt. Ltd., Metro Station, B-10, Near 15, B Block, Sector 2, Noida, Uttar Pradesh 201301

The event started with HOD BCA Department Dr. Ruchi Agarwal, HOD-BCA Department welcoming the guest with a sapling. BCA 2<sup>nd</sup> and 3<sup>rd</sup> year students attended the guest lecture. The Department organizes the hands –on training on Web Development using PHP.

This session was all about developing dynamic web pages using PHP technology. The resource person spoke about the scope of career opportunities available in IT Industry on this technology. He had explained about Technical Architecture and various tiers that are adopted in software development. N-tier architecture was focused very much because it is applicable for web development using PHP technology. The session was useful for students of final year and pre-final year BCA for implementing in their project work.
