REPORT

A Guest Lecture was arranged on 07.02.2020 by Mechanical Engineering Department for the students of 2nd Year, 3rd Year & 4th Year of ME Branch. Mr.S.K DAS was invited as Guest Speaker for the session on “QUALITY MANAGEMENT SYSTEM”. The introduction of speaker to the gathering and compeering of the event was done by Ms. Ayushi Prakash of Mechanical 2nd Year. Then Dr. Devendra Jha (HOD, ME) was invited to welcomed our Guest with bouquet and explained the importance of this session for the students. The session was started with the basic concept of Quality Management. Around 100 students took part in the Lecture. The key note speaker Mr. S.K Das, Lead ISO auditor of American System Register, delivered his lecture by sharing his experiences on Quality Management process audits and fundamentals of ISO 9001. Practical aspects of Plan-Do-Check- Act (PDCA) cycle, Ishikawa Diagram, Pareto Analysis and Corporate quality were discussed in depth with real time examples. Later he also focused on various certification courses which are run by Govt of India in both Undergraduate as well as post graduate level in various universities. All these courses are job oriented course which are very helpful to get a job in this industry. The session was very informative. The event was well organized and coordinated in a professional manner. The session lasted for 2 hours. There was a questioner session after the presentation where Mr. Das cleared the doubt of the students who were keen in asking question related to ISO and various future scopes in this field also some students enquired about Certification coursed etc. The session was concluded with a vote of thanks by Mr.Manash Dey, Asst Prof., (ME).

Some of the pictures of the session are as follows-
