Date: 12th Feb, 2020

Venue: Expo Mart, Greater Noida

No. of Participants: 80 **Faculties:** 02

Report Date: 12th Feb, 2020

REPORT

An Auto-Expo 2020 technical exhibition visit organized by Mechanical Engineering department for 2nd Year students of mechanical engineering at Expo Mart, Greater Noida during 8-12 February 2020. The first ever Indian Auto-Expo took place in the year 1986 and was more of a window for technical knowledge transfer as it exhibited how the automakers were absorbing newer technology and promoting home-grown research and development to adapt technology that suited the rugged Indian conditions. This first expo was held at the Pragati Maidan, New Delhi by The Association of Indian Automobile Manufacturers (what is known as SIAM today), and the Auto Component Manufactures Association of India (ACMA). Auto-Expo 2020 was organized during 8-12 February, 2020 at India Expo Mart, Greater Noida, whereas the Component Show, during 8-12 February, 2020 at Expo Mart Greater Noida. AutoExpo witnessed over 500 product displays from 119 exhibitors. This included 53 Original Vehicle Manufacturers showcasing over 100 products, including 22 launches, 81 product unveilings and 18 concept showcase. There were 14 new brand launches that included Kia Motors India, India.

The visit was very interactive and knowledgeable. Students were able to get clarity on engines and its components at the basic level in details.. The visit came to an end around 3:00 PM.

Some glimpse of the visit are
