- To appreciate the diversity of students with special needs and understand their unique requirement.

**Report:**

The B.Ed. Department of Jims Engineering Management Technical Campus Greater Noida conducted the academic visit on 21/02/2025 to Mata Bhagwati Chadha Niketan School, Noida. In this visit IV<sup>th</sup> and 2<sup>nd</sup> semester students participated. Teacher trainees reached by college bus there. The Coordinators assigned for this visit, warm welcomed and gave brief introduction about the school and its students, infrastructure, facilities and faculty. They told that they are providing free of cost education and transportations to the students. The School conducts regular workshops for students with their parents for sharing the best expertise and to ensure a secure and healthy environment providing to the students. Faculty Coordinator divided students in 2 groups for visiting all the departments of the school to observe their working, challenges and daily routine. The school and its infrastructure are impressive, with spacious classrooms, well-equipped therapy rooms, and a large playground.

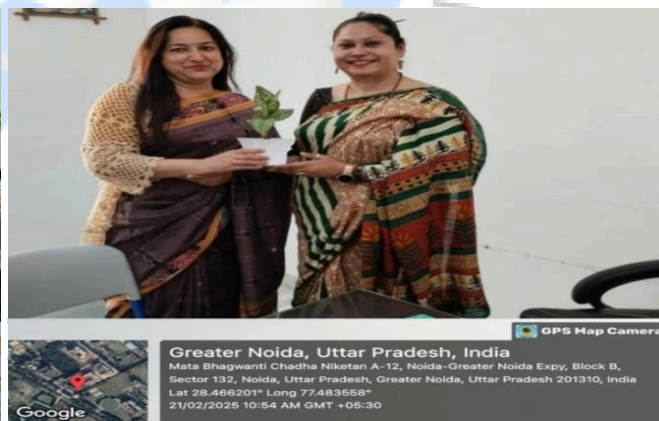

Teacher trainees observed that students are especially able so that building is designed to be wheelchair accessible, teachers are well trained, calm, caring, and dedicated to helping each student reach their full potential. They design their own curriculum and syllabus according to their students. The students appear to be highly engaged and motivated, participating enthusiastically in various activities, such as art, music, and physical education. The school maintains hygiene and safety, with clean classrooms, toilets, and playground areas, many safety precautions are taken by the school like CCTV cameras were all over the school and rope blocks.

During the visit, the trainees get the opportunity to understand the school's teaching methods. They implement innovative programs called Udaan, Samvad, which aims to promote inclusive communication and develop essential social skills, such as empathy, self-awareness, and conflict resolution among the students. The program uses a combination of therapy sessions, group activities, and technology-based tools to help students develop essential life skills. The school maintains high standards of hygiene and safety, ensuring a secure and healthy environment for all students.

### Conclusion:

The school is an exemplary institution that provides high-quality education and care to children with special needs. A Visit to the school provides an educational experience. Trainees gained practical experience in working with students with special needs. Trainees gained deeper understanding of inclusive education and its implementation. It helps to explore career opportunities in special education. Such visits are essential for broadening our horizon and interdisciplinary approaches into education.
