

The department of CSE has organized a guest lecture on “Drone Technology” on 24th Oct 2024 at 11:15 am onwards in Seminar Hall, JIMS. Our esteemed speaker, Mr. Ashish Agarwalla, is a DGCA-certified Remote Pilot Instructor with extensive experience in this domain. Currently associated with Advect Skills Pvt Ltd, Mr. Agarwal shared his valuable insights on the fundamentals of drone technology, its wide-ranging applications, and the regulatory aspects shaping the future of this field. The primary objective of the lecture was to provide students with an understanding of Drone Technology, its applications, challenges, and future potential. The speaker aimed to bridge the gap between theoretical knowledge and practical application, offering real-world examples and case studies. The guest lecture on Drone technology was a resounding success, leaving attendees with a deeper appreciation and understanding about the technology. The event provided valuable knowledge to students and faculty alike, inspiring many to explore further opportunities in the field and development. Drone technology has rapidly evolved in recent years, demonstrating its immense potential across various industries and applications. From agricultural advancements to public safety initiatives, drones have proven to be versatile and valuable tools. While the technology continues to advance, it is essential to address regulatory challenges and ethical concerns to ensure responsible and sustainable use. As drone technology matures, we can expect to see even more innovative applications and a significant impact on society.
