(Affiliated to Guru Gobind Singh Indraprastha University, New Delhi)
Plot No. 48/4, Knowledge Park-III, Greater Noida, PIN-201308

Poster

The poster features a teal and grey geometric background with a grid of dots on the right side. It includes logos for JEMTEC, JIMS Greater Noida, and Catalyst Gen AI. The main title 'CYBERSMART: CYBERSECURITY SIMPLIFIED' is prominently displayed in large, bold letters. Below the title, it describes the seminar as an engaging online session on modern cybersecurity challenges and digital safety practices. The event details, including the date (15 October 2025), time (12:00 PM), and location (Auditorium), are listed on the left. On the right, the names of the student coordinators, Manya Pasricha and Utsav Bhatia, are provided.

Session:	2025-2026	Semester:	Third/Fifth
Ent Date:	15 Oct 2025	Event Type:	NSS-Guest lecture on Cyber Awareness
Time:	12:00p.m. to 1:00 p.m.	Venue:	JIMS-EMTEC Campus
Event Name/Title:	Cyber Security		
Organizing Department	AIML, AIDS and CST	Organizing Student club / Society /Committee if any	Catalyst Gen AI

EVENT REPORT

The Catalyst Gen AI Club organized an insightful **Guest Lecture on Cyber Security** to raise awareness about the growing importance of digital safety in the age of artificial intelligence and connected technologies. The session aimed to equip students with essential knowledge on protecting data, understanding online threats, and adopting safe digital practices.

The session commenced with a warm welcome by Faculty Coordinator/Club President Name, who introduced the event's objectives and the esteemed guest speaker, a recognized expert in the field of cybersecurity and data protection. The event was designed to blend **technical awareness, practical advice, and career guidance**, making it valuable for both beginners and tech enthusiasts.

➤ **Key Highlights of the Event:**

1. Evolution of Cyber Threats

The speaker began by tracing the journey of cybersecurity from the early days of computer viruses to modern, sophisticated cyberattacks powered by artificial intelligence. He/she emphasized how the increasing dependence on digital systems

has given rise to new forms of cyber threats targeting individuals, organizations, and even governments. Real-life examples of major data breaches and ransomware

JIMS ENGINEERING MANAGEMENT TECHNICAL CAMPUS – JEMTEC

(Affiliated to Guru Gobind Singh Indraprastha University, New Delhi)
Plot No. 48/4, Knowledge Park-III, Greater Noida, PIN-201308

attacks helped students understand the scale and complexity of current cyber challenges.

2. Common Types of Cyberattacks

Participants were introduced to several types of cyberattacks such as **phishing, malware, ransomware, spyware, denial-of-service (DoS) attacks, and social engineering**. The speaker explained how these attacks work and the tactics used by cybercriminals to exploit human and system vulnerabilities. Practical tips on identifying suspicious links, fake websites, and fraudulent emails were shared to help students stay vigilant online.

3. Importance of Cyber Hygiene

A significant portion of the session focused on **cyber hygiene**—the everyday practices that individuals can follow to ensure their online safety. The speaker discussed the need for:

- Using **strong and unique passwords**
- Enabling **multi-factor authentication (MFA)**
- Regularly updating software and applications
- Avoiding use of public Wi-Fi for sensitive transactions
- Being cautious about what information is shared on social media

These simple yet effective practices can prevent a majority of cyber incidents.

4. Ethical Hacking and Defensive Strategies

The speaker introduced the concept of **ethical hacking** and explained how ethical hackers use the same tools and techniques as malicious hackers but for legitimate purposes such as identifying and fixing vulnerabilities. Students were encouraged to explore ethical hacking as a career path and were introduced to various certifications like **CEH (Certified Ethical Hacker)** and **CompTIA Security+** that could help them enter this domain.

(Affiliated to Guru Gobind Singh Indraprastha University, New Delhi)
Plot No. 48/4, Knowledge Park-III, Greater Noida, PIN-201308

5. Role of Artificial Intelligence in Cybersecurity

An engaging part of the lecture discussed the **dual role of AI** in cybersecurity. On one hand, AI and machine learning are used to detect threats faster, analyze attack patterns, and automate security systems. On the other hand, cybercriminals also use AI to create more advanced and adaptive attacks. This discussion helped students understand both the **potential and ethical dilemmas** of integrating AI into cybersecurity systems.

6. Career Opportunities and Skill Development

Toward the end of the session, the speaker highlighted the **growing career prospects** in cybersecurity, given the increasing global demand for security professionals. He/she advised students to focus on developing strong analytical skills, networking knowledge, and hands-on experience with cybersecurity tools. The speaker also emphasized that **ethical responsibility and continuous learning** are key traits for anyone entering this field.

7. Interactive Q&A Session

The event concluded with an interactive **question-and-answer session**, where students clarified their doubts on topics such as data privacy, password management tools, cloud security, and how to start a career in cybersecurity. The guest appreciated the curiosity and enthusiasm of the participants, making the session lively and informative.

Conclusion:

The **Guest Lecture on Cybersecurity** organized by the **Catalyst Gen AI Club** was an enlightening and impactful event. It successfully bridged the gap between theoretical knowledge and practical application, empowering students to become more aware, responsible, and skilled in navigating the digital landscape.

The club expressed gratitude to the guest speaker and faculty members for their support and enthusiasm. The event concluded with a vote of thanks and a group
