

Department: CSE

Name of the event: Engi Prix

Date : 11-02-2026

Report: Geek Room, the technical society of the Department of Computer Science and Engineering, JIMS Engineering Management Technical Campus (JIMSEMTC), Greater Noida, organized a technical event titled “Engi Prix” on 11th February 2026. The event was based on the concept of Reverse Engineering and aimed to strengthen students’ analytical and problem-solving skills through hands-on challenges. Engi Prix provided participants with an interactive platform to apply theoretical knowledge to practical scenarios, encouraging innovation, teamwork, and technical thinking

Through participation in Engi Prix, students gain a deeper understanding of engineering systems by analyzing and deconstructing existing designs. They develop strong analytical and critical thinking skills while identifying improvements and proposing innovative solutions. The event enhances practical knowledge by bridging the gap between theory and real-world application. Students also improve their teamwork, communication, and presentation skills through collaborative problem-solving. Overall, the event builds technical confidence, creativity, and industry-relevant competencies.
