Event Report

On National Pollution Control Day & National Energy Conservation Day

Organized by: Department of Commerce

Institution: JIMS Engineering Management Technical Campus (JEMTEC), Greater Noida

Date: 18th February 2026

Time: 11:15 AM onwards

Participants: B.Com (Hons.) Students

1. Introduction

The Department of Commerce, JIMS Engineering Management Technical Campus, Greater Noida, organized a Poster Making Competition on the occasion of National Pollution Control Day and National Energy Conservation Day on 18th February 2026. The event aimed to raise awareness among students about environmental protection, pollution reduction, and sustainable energy practices through creative expression.

2. Objectives of the Event

- To create awareness about environmental pollution and its harmful effects.
- To promote the importance of energy conservation and sustainable development.
- To encourage students to express their ideas creatively through art.
- To develop environmental responsibility among young learners.

- To enhance artistic, analytical, and presentation skills of students.
-

3. Theme of the Competition

“Sustainable Future: Controlling Pollution & Conserving Energy for a Better Tomorrow”

Students were encouraged to depict:

- Causes and effects of pollution
 - Renewable vs non-renewable energy sources
 - Importance of green energy
 - Individual and corporate responsibility towards environment
-

4. Description of the Activity

The competition witnessed enthusiastic participation from B.Com (Hons.) students. Participants prepared innovative and meaningful posters highlighting critical environmental issues such as air pollution, water contamination, industrial waste, global warming, renewable energy adoption, and sustainable living.

Students used various artistic mediums including watercolor, sketch pens, oil pastels, and acrylic paints. The posters reflected strong messages advocating eco-friendly practices, reduced carbon footprint, and energy-efficient lifestyles.

A panel of judges evaluated the posters based on:

- Creativity and originality
 - Relevance to theme
 - Visual appeal
 - Clarity of message
 - Overall presentation
-

5. Learning Outcomes / Benefits

The event provided multiple learning benefits:

Knowledge Gained:

- Understanding of environmental challenges
- Awareness about pollution control measures
- Knowledge of renewable energy sources and conservation techniques

Skills Developed:

- Creative thinking and artistic expression
 - Communication and message framing
 - Critical thinking about real-world environmental issues
 - Confidence and presentation skills
-

6. Student Participation & Engagement

The competition was mandatory for B.Com (Hons.) students, ensuring full participation and involvement. Students actively engaged in discussions about environmental sustainability while preparing their posters. The activity encouraged teamwork, brainstorming, and awareness-driven learning.

7. Conclusion

The Poster Making Competition was a successful and impactful event. It not only enhanced students' creativity but also instilled a sense of environmental responsibility. The activity aligned with the institution's vision of promoting socially responsible and environmentally conscious future professionals.

The Department of Commerce extends its appreciation to all participants and faculty members for making the event meaningful and successful.

Total number of students: 56

Poster of Event

The poster features a central illustration of a hand painting a globe. The left side of the globe is dark and smoky, representing pollution from factories and cars. The right side is bright and green, representing a clean environment with wind turbines, solar panels, and a modern city. The background is a blue sky with clouds and a sun. In the foreground, there are art supplies like pencils, paint, and a palette, along with a stack of books and a trophy.
